Frustrated with your fridge?
Cross with your cabinets?
Fretting about your freezer?

Time for an upgrade

New tax rules and our interest-free credit mean there's never been a better time to buy.

ECO PRO
G2

Well, there's never been a better time to upgrade your kitchen kit.

New tax rules mean you can save thousands of pounds on the latest commercial kitchen appliances. The super-deduction tax break means you get 130% first-year relief on new fridges, freezers, and cabinets as well as whole range of other essential equipment. It's an ideal opportunity to upgrade and invest in the future of your outlet.

Here's how it works. Let's say your business spends £10,000 on kitchen equipment. When you calculate your taxable profits your corporate tax deduction will be £13,000 (i.e. 130% of your initial investment). Deducting £13,000 from your taxable profits will save your business up to 19% of that – 19% of £13,000 is £2,470. And that's how much corporation tax you save if you qualify for super-deduction.

But the benefits don't end there. At Foster Refrigerator we've added our own mouth-watering incentive. If you buy from us, you can also take advantage of our award-winning interest-free credit scheme.

Our hugely successful 12-month interest-free credit offer has been doubled, so you'll now be able to pay for your equipment over 12, 18 or 24 months, all while its working for you. And what's more, you'll own the product after the final payment. Subject to credit checks we don't even take a deposit, and there's even the option to include the installation and extended warranty cost within the payments.

To find out more about how you can benefit from the super deduction and our interest-free credit scheme contact us on:

See how much you save when you combine the super deduction with our industry-leading interest-free credit.

Example costs	Total for 2 years
Cost of investment (£1000)	
Repayments (3 month holiday) £47.62 for 21 months	£1,000.00
Super deduction	
£1300 (Super deduction) x 19% (corporation tax) = £247 saved	-£247.00
Net cost of investment	£753.00
Capital cost per week when purchased on 24 months interest-free credit:	
Weeks 1-12 (payment holiday)	£0.00
Weeks 13-104	£8.18

On top of this, you know you'll be investing in the best equipment on the market and all the benefits Foster equipment delivers, such as outstanding energy efficiency and reliability ensuring you enjoy low running costs and consistent performance 24/7.
